Regional LMI Profile Series

NECTA and Workforce Area Geographic Definitions: Cross Tabulations and Maps

**Report #1
AUGUST 2005**

Acknowledgements

Creation of the *Regional LMI Profiles* was an initiative of the Interagency Workgroup for Regional Profiles under the auspices of the Massachusetts Department of Workforce Development and the Massachusetts Workforce Investment Board (MWIB).

This report, the first in an expanded *Regional LMI Profiles Series*, is a resource guide to the newly defined labor market areas in Massachusetts.

The Regional LMI Profiles provide comprehensive timely data and information for the state and sixteen workforce areas. They give state and local policy makers tools to better assess the dynamics of Massachusetts' many local economies and to compare and contrast the economic performance of our state's varied regions.

Production of this report required the efforts of many individuals. Susan Lawler, Commissioner of the Division of Career Services, and Marilyn Boyle, Director of Systems Development and Economic Analysis, provided overall guidance and support for this project. This report was prepared by Chief Economist Elliot Winer and economists Cathy Foley, Edward Kaznocha, and Bob D'Alessandro. Vickie Green provided technical assistance on the formatting of the report. The creative talents of Yean-Ai Long and Eugene Clark, who designed the cover for the publication, are very much appreciated. Thanks as well to Jeff Cappello and Sonny Vo for their work in the final production and printing of the reports.

Lastly, this project would not have been possible without the support of Jane C. Edmonds, Director of the Department of Workforce Development, The Honorable Peter Torkildsen, Executive Director of the Massachusetts Workforce Investment Board and Jennifer James, Deputy Director of the Department of Workforce Development.

August 2005

Tab 1:
Narrative Overview
of
New Labor Areas

New Labor Area Configurations

Massachusetts recently implemented new labor area configurations based on results of the 2000 census and new standards required by the U.S. Office of Management and Budget (OMB). The new areas are called New England City and Town Areas (NECTAs). These areas, while reflecting the importance of cities and towns to New England, are based on the same criteria as Metropolitan Statistical Areas (MSAs) used for areas outside of New England.

The basic criteria are as follows:

- 1) Areas with an urbanized core of 50,000 and more are designated as **Metropolitan NECTAs**
- 2) Areas with an urbanized core of at least 10,000 but less than 50,000 are called **Micropolitan NECTAs**
- 3) A NECTA containing a single core with a population of at least 2.5 million may be subdivided to form smaller groupings of cities and towns referred to as **NECTA Divisions**

Based on the new standards, Massachusetts now contains all or parts of eight newly defined and configured Metropolitan NECTAs and four Micropolitan NECTAs. One of the Metropolitan NECTAs (Boston-Cambridge-Quincy, MA-NH) is further subdivided into nine NECTA Divisions. There are also three state-defined Labor Market Areas (LMAs). Nine small towns are not part of any labor area due to the lack of sufficient economic integration to a core area (Charlemont, Conway, Hardwick, Hawley, Petersham, Provincetown, Rowe, Royalston, Warren).

The new areas are as follows:

Metropolitan NECTAs

Barnstable Town, MA
Boston-Cambridge-Quincy, MA-NH (see Divisions)
Leominster-Fitchburg-Gardner, MA
New Bedford, MA
Pittsfield, MA
Providence-Fall River-Warwick, RI-MA
Springfield, MA-CT
Worcester, MA-CT

Micropolitan NECTAs

Amherst Center, MA
Athol, MA
Greenfield, MA
North Adams, MA-VT

NECTA Divisions

Boston-Cambridge-Quincy, MA
Brockton-Bridgewater-Easton, MA
Framingham, MA
Haverhill-North Andover-Amesbury, MA-NH
Lawrence-Methuen-Salem, MA-NH
Lowell-Billerica-Chelmsford, MA-NH
Lynn-Peabody-Salem, MA
Nashua, NH-MA
Taunton-Raynham-Easton, MA

LMAs

Great Barrington, MA
Nantucket Town, MA
Tisbury, MA

Data Availability

Labor Force Data

Unemployment rates and other labor force data, also referred to as Local Area Unemployment Statistics (LAUS) data, are available for NECTAs, NECTA Divisions, and LMAs, as well as Workforce Areas, counties, and cities and towns. The data are available on a monthly basis and are usually released on the Tuesday after the third Thursday of each month.

Quarterly Census of Employment and Wage Data (QCEW)

Quarterly employment and wage data (also referred to as ES-202 data) are available for the same areas as the labor force data. They are released approximately five to six months after the end of each quarter.

Current Employment Statistics (CES) Data

Monthly jobs data based on the CES survey are available for all NECTAs and NECTA Divisions with the exception of the MA portion of the Providence-Fall River-Warwick RI-MA Metropolitan NECTA, the Taunton-Norton-Raynham MA NECTA Division, the Lawrence-Methuen-Salem MA-NH NECTA Division, and the MA portion of the Nashua NH-MA NECTA Division. The jobs data are usually released the same day as the statewide unemployment and labor force data (third Thursday of each month).

Occupational Employment and Wage Data

Occupational employment and wage data, obtained from the semi-annual Occupational Employment Statistics (OES) survey, are released twice a year (spring and fall) and are available by Workforce Area and the old MSA definitions. Data on the new NECTA definitions will be released in May of 2006.

About Metropolitan and Micropolitan Statistical Areas

The Office of Management and Budget (OMB) defines metropolitan and micropolitan statistical areas for purposes of collecting, tabulating, and publishing federal data. Metropolitan and micropolitan statistical area definitions result from applying published standards to Census Bureau data.

The general concept of a metropolitan or micropolitan statistical area is that of a core area containing a substantial population nucleus, together with adjacent communities having a high degree of social and economic integration with that core. Metropolitan and micropolitan statistical areas comprise one or more entire counties. NECTAs are conceptually similar but are defined using cities and towns.

The largest city in each metropolitan or micropolitan statistical area is designated a "principal city." Additional cities qualify if specified requirements are met concerning population size and employment. The title of each metropolitan or micropolitan statistical area consists of the names of up to three of its principal

cities and the name of each state into which the metropolitan or micropolitan statistical area extends. Titles of metropolitan divisions also typically are based on principal city names but in certain cases consist of county names. The New England city and town areas (NECTAs) are defined using the same criteria as metropolitan and micropolitan statistical areas and are identified as either metropolitan or micropolitan, based, respectively, on the presence of either an urbanized area of 50,000 or more population or an urban cluster of at least 10,000 but less than 50,000 population. If the specified criteria are met, a NECTA containing a single core with a population of at least 2.5 million may be subdivided to form smaller groupings of cities and towns referred to as New England city and town area divisions.
